DETAILS MAKE A DIFFERENCE

CHOOSE THE LOOK YOU LOVE

Love everything about a door except the surrounding edge profile? Or maybe you'd rather have a different style of drawer front? Omega allows you to choose the overlay, drawer front style, and outside edge, creating a look that is uniquely yours. Your Omega Designer will tell you how!

Not all drawer front options shown are applicable to every door. See your Omega Designer for appropriate door/drawer profile combinations.

DETAILS MATTER

Creating a design theme around the authenticity of handcrafted detail begins at the workbenches of Omega craftsmen and women.

Door/Drawer Front Pegs are not applicable on every door.
See your Omega Designer for availability.

Square
Door/Drawer Front Pegs

EXCLUSIVE TO YOU

Looking for something more? Perhaps you've spied a style you'd love to live with—but just can't seem to locate. Your Omega Designer will work to create the look that lives in your mind's-eye, enjoying the freedom of creativity with Omega.

INSET DOOR STYLES

INSET DOORS

Capture the tradition and beauty of inset door styling exactly as you desire. Our options include a slab or five-piece drawer front, hidden or exposed finial hinges, and beaded moulding, as well as 1" thick frame and door options to appeal to the most discerning homeowners. Inset doors are available in our standard finishing offerings, including opaques, and are a classic indicator of fine craftsmanship.

No Bead

Beaded

Beaded with Finial Hinge

See pages 4-6 to view which door styles are available in inset styling. Look for the ★ symbol.

Finial Hinge Finishes: Antique Brass, Matte Black, Polished Brass, Polished Chrome, Satin Nickel.

1" THICK INSET DOORS AND FACE FRAMES

For selective palates, consider our four door styles available in both Beaded and Non-Beaded Inset options. Due to their unique designs, these door styles are mounted in a thicker, one inch face frame. The added depth allows for more detail in the profile and a finer, furniture-quality appearance. Available for Omega Framed only.

When Maple opaque finishes are ordered, the door center panel may be constructed of Medium Density Fiberboard (MDF), except when Heirloom, Vintage Touch, Antiquing, or any finish that includes physical distressing are specified. MDF provides a smoother finish when painted, and is more resistant to warping, expansion, and contraction.

GLAZE OPTIONS

Nearly every stain is available with a selection of light or dark glaze options, allowing you to choose the look that works best for your project. Penned glazes, available on stains and opaques, are meant to highlight and accentuate the profiles of a door, while flooded glazes, available on stains only, change the overall tone of the underlying stain. See your designer for details.

finish technique BRUSHED SHADOW

BRUSHED FINISH OPTIONS

This beautiful technique consists of a base color that is touched with a directional brush stroke. Applied by hand, this finish creates unparalleled depth and movement to the final product. Finish combinations present looks that range from aged or weathered, to a modern contemporary feel. Choose from the rich black tones of Brushed Ember, the lush brown nuances of Brushed Shadow, the softer, more subtle brown of Cappuccino, or the darker brown finish yet subtle touch of Hazelnut. Ember and Shadow will have a heavier intensity brush stroke, where Cappuccino and Hazelnut will have a softer more subtle brush stroke. Carefully applied by hand, brush strokes follow the directional wood grain of the selected door.

STANDARD SHEEN

A semi-gloss top coat, the standard on all Omega stained product.

ICED TOP COAT SHEEN

Pearlescent characteristics provide a subtle luminous reflection, enhancing the finish with a soft radiant glow.

ULTRA MATTE SHEEN

A low sheen top coat available on all Omega stained finishes.

TOP COAT TECHNIQUES

ICED TOP COAT SHEEN

With its subtle opalescence our exclusive top coat transforms any stain or opaque, giving it a unique shimmer. It is applied to the entire exterior unit, not only doors and drawers. This gentle layer of frosting is so distinctive that we recommend you look at an actual sample to appreciate its full effect.

Cherry Smokey Hills

Iced Cherry Smokey Hills

ULTRA MATTE SHEEN

An ultra matte sheen absorbs light rather than reflecting it, resulting in a subtle muted appearance. The color appears more solid from all angles which means your kitchen will have a smooth look, no matter the time of day. With some gloss finishes, different lighting can dramatically change the look.

Smokey Hills

Smokey Hills Ultra Matte

ADDITIONAL TECHNIQUES AVAILABLE

Take your cabinetry finish wish list to the next level. For applied moulding door styles, we're happy to add a Second Color. Ask your Omega Designer how.

SPECIALTY EFFECTS

ANTIQUING AND VINTAGE TOUCH

Antiquing creates heirloom appeal by using lighter and fewer effects than Vintage Touch. The antiqued look of natural wear is achieved by lightly sanding and softening profiles, applying realistic looking worm holes, light dents and chiseling with randomly scraped profiles. All special effects are applied prior to finish. The underlying wood is not exposed with this technique.

Vintage Touch creates vintage appeal by randomly distressing the wood with dents, rasping, speckling, applying worm holes, and features the sand over of profiles before and after finish, exposing the underlying wood. A gray toned edging is applied to soften the exposed areas creating a look that simulates the natural wearing of wood resulting from years of use.

CUSTOM COLORS

CUSTOM OPAQUES

Dream in color, we'll make it come true! With two levels of color selection to choose from, your Omega Designer will guide you in the right direction. We have a breadth of colors available from any national paint manufacturer, or supply a fabric swatch or artifact to match and custom color has a whole new meaning!

CUSTOM STAINS AND TECHNIQUE

Perhaps you've happened upon a wood stain or particular technique that has become the object of your desire. Supply a minimum 6" x 6" solid wood sample and Omega will produce a door to match. We'll send half to you for approval, while we keep the other for reference. See your Omega Designer for details.

QUALITY EXECUTION.

THAT'S WHAT DRIVES OMEGA.

Sincere effort and skilled execution are at the forefront of what we do, with master craftsmen and women who are truly artisans of their trade. We build beautiful cabinetry day in and day out, with the intention that you'll love your finished product and enjoy the everyday excellence of Omega.

BUILDING A PASSION FOR WHAT WE DO.

1.
IN THE BEGINNING.

We start with raw wood. Lumber—in board feet and a variety of species—right off the truck and into our Rough Mill. This is where your cabinetry begins. Meticulously sorted, expertly milled and then hand-crafted into a work of art.

2.
THE BEST TOOLS OF THE TRADE.

Selecting the best tool for a task doesn't always mean choosing high technology. At Omega, we match device to assignment, knowing that often, time-honored methods are best.

3.
OUR PEOPLE ARE OUR GREATEST ASSET.

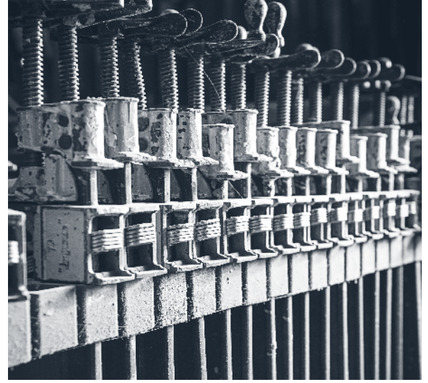

Skill and sensibility is what makes our product great. The human touch that goes into every piece with precision and thoughtfulness is non-negotiable.

4.
FURNITURE QUALITY AS STANDARD.

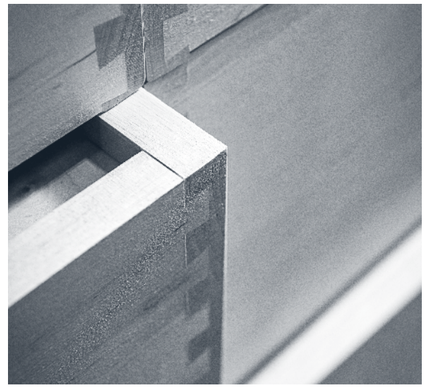

We build cabinetry on the order of fine furniture. Expect dovetailed joints on drawers, drawer glides that move quickly and smoothly, and gently close with a push of a fingertip.

5.
CARE AND CRAFTSMANSHIP, IT'S OUR BOTTOM LINE.

Painstaking care with an eye for detail, it's evident in everything we do. We value the folks that build our products, and you'll appreciate the conscious effort applied to every project.

OMEGA CONSTRUCTION DETAILS

At Omega, we offer beautiful choices for creating a look you'll love. The appropriate construction platform selection is something that you'll want to discuss with your Designer as you choose between Framed and Full Access. Each features the same great looks, yet offers distinctive differences tailored just for you.

FRAMED

With over 130 modifications and available in a variety of overlays, including inset. Generally considered more traditional in styling, it can range from sleek and minimalist, to highly detailed and ornate. Omega framed cabinetry is crafted with time tested materials and construction techniques. Choose from any of our fashion forward door, wood, finish choices or customize to create a look of your own.

FULL OVERLAY

INSET

FULL ACCESS

A full complement of door styles plus the addition of acrylic and laminate materials pair with Full Access construction for a sleek look. Enjoy over 75 modifications and custom quoting.

DRAWER BOX OPTIONS

Every Omega cabinet begins with a commitment to enduring quality. While our premium standard drawer box serves as a robust foundation for any space, we invite you to explore our curated upgrades—from deep walnut to sleek metal—crafted to elevate your cabinetry into a fully bespoke, high-end masterpiece. No matter the drawer box you choose, full extension drawer glides with soft close will always be standard.

1

2

3

4

5

6

7

1. HARDWOOD - *Standard*
   Authentic craftsmanship meets enduring integrity, celebrating the timeless strength and unique character of solid wood.

2. MAPLE NATURAL - *Optional*
   Clean and versatile, natural maple offers a refined, luminous backdrop that complements any design aesthetic beautifully.

3. WHITE OAK NATURAL - *Optional*
   White oak blends organic elegance with a tranquil, neutral palette for modern storage.

4. WALNUT NATURAL - *Optional*
   Rich, tonal warmth meets sophisticated luxury, transforming every interior into a curated, high-end design statement.

5. STAINED MATCHED - *Optional*
   A unified vision. Ensure your cabinetry drawers speak the same sophisticated design language as the exterior.

6. STAINLESS STEEL - *Optional*
   Elevate your cabinetry with the sleek, professional edge of stainless steel. Full Access only.

7. GRAY POWDER COAT - *Optional*
   A refined, architectural interior. This sleek gray finish blends high-performance durability with a modern, velvety aesthetic. Full Access only.

INTERIOR CABINET OPTIONS

A well-designed home is a complete sensory experience, from the first glance to the final detail. Our standard woodgrain or white laminate interiors provide a crisp, resilient foundation for your daily rituals, offering a clean and rhythmic backdrop for organization. For those seeking a deeper level of personalization, our premium upgrade interiors allow you to extend your design narrative inward—elevating every opening of a door into a moment of artisanal luxury.

1

2

3

4

5

6

7

1. LAMINATE NATURAL WOODGRAIN - *Standard*
   Capture the rhythmic, airy essence of natural maple with a resilient, easy-care surface for everyday elegance.

2. LAMINATE WHITE - *Standard*
   A clean, luminous canvas that offers a crisp backdrop for your essentials with effortless, modern maintenance.

3. NATURAL HARDWOOD VENEER - *Optional*
   The authentic soul of real wood, providing a curated, tactile interior that honors traditional cabinetry craftsmanship.

4. WHITE OAK NATURAL VENEER - *Optional*
   This neutral-toned veneer brings a sophisticated, organic texture to your cabinetry's core. Available with opaque exteriors.

5. WALNUT NATURAL VENEER - *Optional*
   Deeply tonal and luxurious, walnut veneer creates a high-end, bespoke experience every time a door opens. Available with opaque exteriors.

6. MATCHING INTERIOR - *Optional*
   A continuous design narrative. Let the exterior's sophistication flow inward for a perfectly unified aesthetic.

7. CONTRASTING INTERIOR - *Optional*
   Challenge expectation with a contrasting interior—a curated, high-end design statement that transforms every cabinet into a moment of unexpected, architectural excitement.
